

Paving the way to the future of dermatology, plastic surgery, and aging science

WHY IMCAS FUND?

In a fast-evolving, innovative, and competitive sector, much remains to be explored. Greater investment in science and research is essential to push boundaries, achieve meaningful progress, and shape a better future for generations ahead.

Our ambition is to contribute to the growth of sustainable research and innovation. We aim to foster collaboration within academic circles and support the global advancement of scientific knowledge.

IMCAS FUND aims to establish a lasting and impartial framework that connects researchers and innovative projects with the funding they need to thrive.

MISSION: TO ADVANCE THE RESEARCH IN DERMATOLOGY, PLASTIC SURGERY, AND AGING SCIENCE

The **IMCAS FUND** is committed to spearheading groundbreaking advancements in science, driving sustainable innovation, and leading transformative research in our fields through:

- Fostering innovative concepts to advance scientific progress in the respective fields
- Leading new and pragmatic research projects
- Advocating for the improvement of medicine and public wellbeing, serving the greater good

OUR VALUES

EQUALITY

TRANSPARENCY

SOCIETY ENGAGEMENT

ETHICAL TESTING PRACTICES
NO ANIMAL TESTING

The **IMCAS FUND** is founded on a set of strict values which we assiduously uphold. These values are essential to the goal of our organization as well as our *modus operandi*.

IMCAS FUND

A MESSAGE FROM OUR SCIENTIFIC DIRECTOR

"IMCAS brings together a broad community of researchers and practitioners in dermatology, plastic surgery, and aging science from around the globe. By partnering with these prominent networks, IMCAS FUND is poised to explore and support innovative and independent projects within these fields. The aim is to discover and amplify pioneering initiatives that drive progress in our specialities."

Dr. Peter Velthuis,
PhD Dermatologist, Netherlands

SELECTION COMMITTEE

Dr. Benjamin Ascher
Plastic surgeon, France

Prof. Haiyan Cui
Plastic surgeon, China

Prof. Lilit Garibyan
Dermatologist, USA

Dr. Marina Landau
Dermatologist, Israel

Dr. Gilbert Zakine
Plastic surgeon, France

Duties : Promote imcas fund, select projects, supervise execution, publish output

EXECUTIVE SECRETARY

Dominique du Crest
Industry representative, France

BOARD OF DIRECTORS

Dr. Hugues Cartier
Dermatologist, France

Severine Dubarry Bardon
CEO, Comexposium Healthcare

Dr. Sébastien Garson
Plastic surgeon, France

HOW TO APPLY

Benefit from the knowledge and experience of mentoring practitioners and researchers involved in the growing IMCAS FUND community. IMCAS FUND’s goal is to make innovation accessible globally. Join our growing community by submitting your project suggestion, following the steps below.

SUBMIT YOUR PROJECT	1
PROJECTS SELECTED	2
ALLOCATION OF FUNDS	3
PROJECT IMPLEMENTATION	4
FOLLOW-UP AND PUBLICATIONS	5

ELIGIBILITY REQUIREMENTS

- Non-commercial project*
- Scientifically sound research plan
- 6-24** month project duration
- Large target audience for benefit
- Focus in dermatology, plastic surgery
- Must respect values of IMCAS FUND
- Anticipated funding range :**up to€ 100k**
- No animal testing or use of animal material
- Compatible with French regulations

*Project must be linked to a non-profit organisation, (i.e. research centers, hospitals, universities, etc...). Projects from individuals or commercial enterprises are not accepted. Projects cannot aim at promoting or testing a specific singular product or company

HOW TO GET INVOLVED AS A PARTNER

Support our growing community within the medical research field by becoming a benefactor. By submitting your donation, you help pivotal projects around the world.

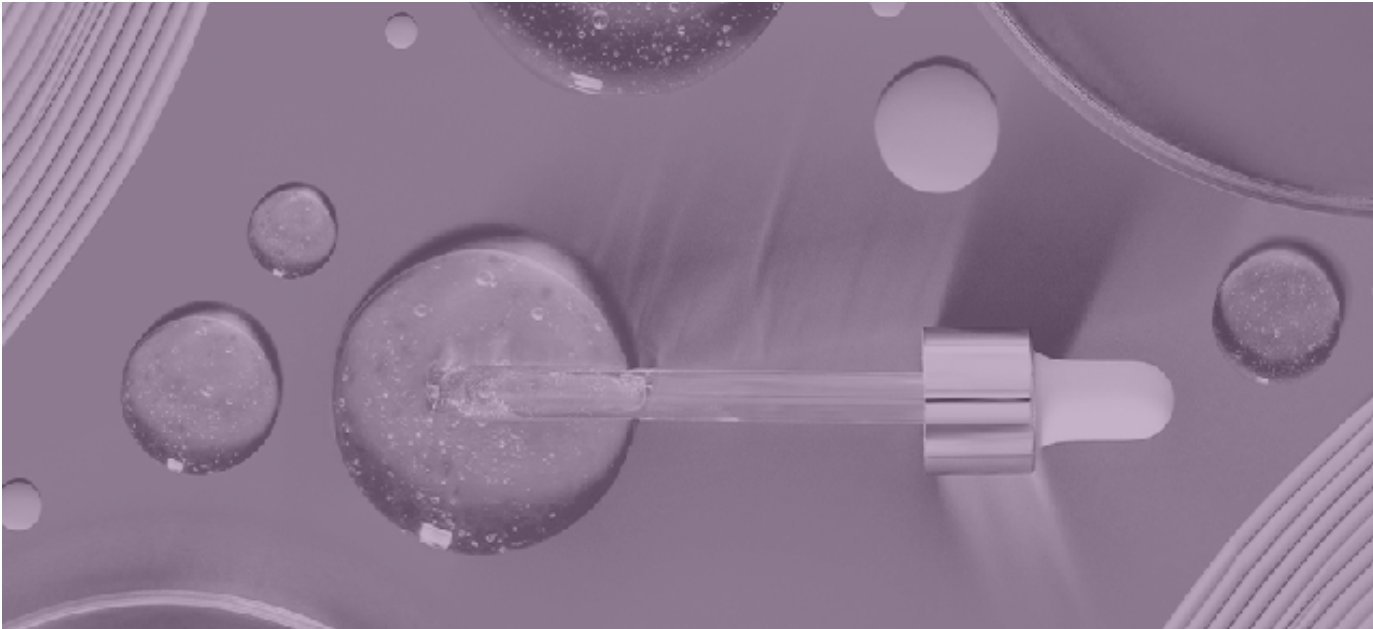

- Influence the future** of dermatology and plastic surgery and subsequent public wellbeing
- Be at the forefront of the **innovation dynamics**
- Gain visibility** within both the medical community and IMCAS Fund

INDIVIDUAL

Whether you choose to make a one-time donation or set up recurring contributions, it’s an easy and meaningful way to support progress in our fields, all on your schedule and within your budget.

ENTERPRISE

Whether funding a Foundation program which supports their core business or an issue that the company and its employees find meaningful, we work closely with our partners to explore opportunities to advance our mutual, life-changing work.

PROJECT ROADMAP

Project submissions in 2024: 83

Projects funded: 2

Next open call: July 2025.

Examples of potential research topics IMCAS FUND is looking to collaborate with are:

IN VITRO EVALUATION OF EXOSOME-BASED PRODUCTS ON INFLAMMATION,

HYPERPIGMENTATION, AND SKIN AGING

OBSERVATIONAL STUDY OF FILLERS TISSUE INTEGRATION (HA, PLLA & CAHA)

STEM CELLS, REGENERATIVE MEDICINE

IMCAS FUND is an endowment fund under French law (fond de dotation) which receives and manages donations and endowments intended to fund selected projects. IMCAS FUND is created by Comexposium Healthcare.
